OUR TEAM BUILDS YOURS

From the beginning, the feeling of comoraderie and the fond memories gathered from participating in athletics have fueled the passion that is CHAMPRO. 37 years ago, we spent countless hours creating products and writing orders around a kitchen table; and now, through a simple promise of providing accessible, quality sporting goods to everyone who wants to play, CHAMPRO has developed into a company with 40 factories in 13 countries with customers all around the world. CHAMPRO is family-owned, which allows us to be hands-on to provide personal attention and the best service to our customers.

CHAMPRO equipment and uniforms are used by millions, from youth programs to professional athletes. Because we do not pay for advertising or endorsements, our products offer more performance per dollar than any other brand. We use our resources for research, development, and distribution. Plain and simple. CHAMPRO athletes choose us because our gear autperforms and autlasts the competition. And we are not stopping there. Our R&D team is driven to create products that will raise our performance celling to the next level and big releases are coming soon! We also operate under a one-world philosophy. We have a global commitment to positively impact people's lives and our planet. The CHAMPRO School in Ethiopia was created to provide a campus to educate those without the resources to do so for themselves. We provide funding and in-kind support to continuously upgrade educational materials and build wells to provide fresh water for the school and surrounding areas. We also provide support and product for local youth sports programs through the Boys' and Ciris' Clubs and other organizations serving disadvantaged young people. We plant a tree for every sales order we receive and we source 100% of the electricity in our headquarters office and DC from renewable sources. Our commitment is also to our staff. We foster a safe, fun, and fair work environment where all team members can thrive and grow.

CONCEPT 3000 DISLODGING SAFETY BASE REDUCES THE POTENTIAL FOR SLIDING INJURIES

Top pad is strong enough to support a player standing on the base, but flexes and dislodges from the smooth bottom plate as player slides in. Pad can be reset on the bottom plate when play is complete. This allows the player standing on the base to be supported by the rigid top pad, while the sliding player can smoothly slide over the plate after the pad dislodges.

CUSTOM JUICE SUBMISSION

No art charge for template designs or numbers.

Template designs within a sport are interchangeable, but template designs

requested in another sport pattern will incur a set-up charge of \$50.

Unique designs not based off a CHAMPRO template will incur a one-time \$50 set-up charge. All colors, decoration, locations and sizing must be specified.

Any custom orders not submitted with specific direction may be subject to artwork fees. Artwork must be submitted in one of the acceptable artwork formats listed below.

ACCEPTABLE ARTWORK FORMATS

VECTOR ART

We accept print-ready vector art files in the following formats: AI, EPS, or PDF. Vector art can be scaled to any size while maintaing quality. Vector art is always preferred. Please remove any overprints within your file; these will drop out when printed. If vector art cannot be supplied, files that require digitization will incur a graphic design service charge at the rate of \$50 per hour with a minimum charge of one hour.

PDF files will be converted to AI; we are not liable for any errors during conversion.

Raster art, otherwise known as bitmap art, is composed of pixels grouped together to make one complete image. When scaled larger, the image will look pixelated. If you must submit a raster image, make sure the resolution is 200 DPI (dots per inch) or larger

LOW RESOLUTION RASTER ART

OUTLINED FONTS

Outlined fonts are required for all artwork formats. Font selection can vary on different computers, which can cause a desired font to be replaced with a generic one. To preserve your fonts, always outline, embed, or convert them to shapes before submitting artwork. If a specific font is required, the name of the font and the font file (TFF or OTF) must be submitted.

EMBEDDED IMAGES

Most programs allow the user to add an image to a file by linking or embedding. Embedded images are stored within the document itself, while linked files are not. Because of this, linked files can vanish when opened from a different computer. Please embed all images to avoid losing them when files are sumbitted. Any embedded images must be high resolution. If submitting a PSD file, all layers should be flattened

UNACCEPTABLE FILE FORMATS

Microsoft Office, InDesign, Quark, Corel Draw, Publisher, or low-resolution scanned images.

COLOR DISCLAIMER

Scientifically it is not possible to achieve a perfect color match from one JUICE garment to another, or from JUICE garments to CHAMPRO stock garments. Therefore, we cannot guarantee a perfect match from order to order or from one fabric to another. If you have questions about our colors, please contact us for more information. Art submissions with specific Pantone Color call outs will automatically be converted to CMYK. If your job is color sensitive, please contact us for information on color matching services. RGB files will be converted to CMYK; some color shifting will most likely occur. Unless a sample is ordered, CHAMPRO is not responsible for unsatisfactory color results

COLOR MATCHING

We cannot color match gradients. We print digitally in CMYK and use PMS colors as a guide; therefore the colors are not exact. If you have a color sensitive project, we highly recommend that you order a sample. In the event that you do not, we will match as close as possible to the PMS colors provided, but are not responsible for the colors not printed to your liking.

CARE INSTRUCTIONS

IMPORTANT NOTE

The measurements listed in the below charts are body measurements (in inches), not garment measurements. If your body measurement is on the borderline between two sizes, order the smaller size for tighter fit or the larger size for looser fit.

How to Measure:

Bust/Chest:

With arms relaxed at sides, measure around the body at the fullest part of the bust/chest, keeping the tape parallel to the floor.

Waist:

Measure around the body (not on top of clothing) at the natural waist level.

Hip:

With feet together, measure around the fullest part at hip level, keeping the tape parallel to the floor.
