# CONTOUR FIT

## NARROW FINGER STALLS

Narrow finger stalls for full contact of all five fingers with your glove.

## LOWERED FINGER STALLS

Lowered finger stalls promote contact with the back of the glove.

## SMALLER WRIST OPENING

Smaller wrist opening combined with the adjustable wrist pull lace creates a custom fit with your glove.

## ADJUSTED BACK OPENING

Glove back adjusted down to make finger pad reachable, improving feel and control with your glove.

"Fits like a glove" is a popular saying for good reason. Fit is paramount and we're constantly developing and designing the perfect fit for every player and hand size. Extensive research and testing revealed a need for a specific pattern tailored to smaller, thinner hands. Contoured to fit you, we didn't overlook a single piece of making this pattern. Get your hands on a Contour pattern - fit for UR game.

*Just when you thought leather couldn't have technology here it is—cue the Encore! Finally a glove technology you can see and feel, this web and pocket combination is bound to be a fan favorite. Its bolstered base design prevents against sting thanks to the added protection in the palm area. Additionally, its inventive web construction and deep pocket allows the fingers to close around the web, keeping the shape of the pocket intact. Worthy of an encore, it will be the glove you come back to again and again.*

- Patented web construction and deeper pocket allow fingers to close around the web
- Extended base design prevents against sting having added protection in the palm area
- Overall design promotes faster break in and easier close while still holding shape
- New adjustable hand opening for a custom fit

## RED DOT® 3-PIECE TECHNOLOGY

A step above competitor's 2-piece softballs: that is why the best players in the nation choose Rawlings. The inner core uses Rawlings' proprietary dense cell formulation, creating a ball worthy of being the Official Championship Softball of the NCAA® and NAIA®. With the addition of the C-LOK™ adhesive and moisture barrier, the improved pro-leather cover with just the right amount of tack, there is no wonder why Rawlings has a rich tradition in fastpitch softball.

Balls without Rawlings' C-LOK™ and poly-core combination can absorb moisture and lose compression (get softer).

C-LOK™ plus Rawlings' proprietary dense cell poly-core technology repels moisture and maintains higher compression.

## DREAM SEAM® HIGH-DENSITY CORK

For teams wanting the distinctive sound and feel of cork, Rawlings offers a complete line of NFHS®, ASA®, USSSA®, NSA® and ISC™ cork game balls. Made of high-density cork and Rawlings' patented Dream Seam® Technology, they offer the performance you demand while giving a lower cost option in game balls.

## RIF® TRAINING BALLS

Rawlings was the originator of RIF® balls designed to reduce the severity of ball impact injuries. Since the original RIF® game balls, Rawlings has expanded its offering to practice-level soft-training balls. These products are great for outdoor as well as indoor training.

## **WASHING GUIDE**

**WASH UNIFORMS PRIOR TO FIRST USE AND IMMEDIATELY AFTER EACH USE.** Naturally occurring PH levels in sweat may cause dye migration in first use. We recommend a detergent like Tide® Plus Coldwater Clean. Prior to washing in cool water, turning the garments inside out will help preserve Twill, Vapor Fusion™, HS Fusion, and Embroidery. Claspings Velcro® prior to washing may help prevent snagging or picking.

**DO NOT WASH UNIFORMS WITH OTHER ITEMS.** Bleeding may occur.

**DO NOT USE BLEACH.** Bleach will deteriorate fabric fibers and may cause color loss.

**DO NOT OVERLOAD WASHER OR DRYER.** Hang dry is recommended for best results. In the dryer, overloading may cause the uniforms to stick together, especially those with HS Fusion. Remove garments immediately after both wash and dry cycles. To avoid static and lint build-up, use an anti-static agent such as Bounce® Dryer Sheets.

**DO NOT EXPOSE UNIFORMS TO HIGH HEAT.** Excessive heat is the enemy of your uniform. Heat presses, ironing, dry cleaning, or heat transfers may cause dye migration and break down fabric fibers. Excessive heat, especially in dryers, can cause shrinkage above normal tolerances, cause HS Fusion to crack, and Twill to wrinkle. If you use a dryer, please use a 'damp dry' or 'air dry' setting.

**STORE IN A COOL, DRY AREA, AWAY FROM DIRECT SUNLIGHT.**

Excessive sunlight may cause discoloration.

Heavily soiled garments (grass, dirt, clay mud), pre-treatment is recommended

- Spray on products such as Spray 'n Wash®, Shout®, or ESPRO® cleaner have been tested with positive results.
- Products such as Shout® Advanced Action Gel can be used for stubborn stains.
- For blood stains, it is best to rinse in cool water as soon as possible, and if necessary, soak in cool water before washing. One of the above pre-treatments can also be used, or an oxygen-based laundry booster such as OxiClean® can also be used.
- For ink stains, use hair spray as soon as possible. Delaying the application of hair spray may decrease results. Spray on stain and rub until the ink is gone. Wash as normal.

## **QUALITY GUARANTEE**

1-year warranty starts from date of customer receipt of Rawlings® uniforms. Warranty covers any defect or condition of a uniform that can be attributed to a manufacturing error, or otherwise deemed to be a Rawlings® quality concern. This does not include damage or discoloration that may occur from excessive collisions or abrasions, customer alteration, improper care, or circumstances beyond Rawlings® control. Please use the above uniform care instructions for best results.

Our caring service representatives are standing by for your questions at 1-800-729-5464 (800-RAWLINGS).
